

Low Odor Resin

- High precision
- Good fluidity
- Short curing time

Low Odor Resin

High cost performance

Low odor

Smooth finish

High precision

Good fluidity

Short curing time

Wide compatibility

- ✓ High precision and delicate performance
- ✓ Good fluidity and high printing success rate.
- ✓ Low odor, let you use more assured.
- ✓ Compatibility with Most LCD/DLP Printers.

Seal Caps Design

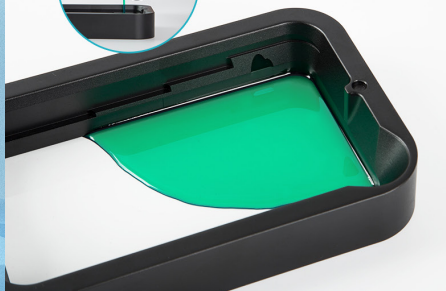

Leak proof with additional inner cap

Hidden aluminum bottle to stand against outside pressure

Totally Shading

Low Viscosity & Good Fluidity

This resin has good fluidity which can quickly infiltrate the model and then solidify. It improves success rate by reducing resin release and adhesion. In addition, it helps cleaning the machine and model easier.

Low Odor Resin

High printing accuracy

Low shrinkage, stable printing size and high printing accuracy. The model has fine texture, smooth surface and three-dimensional details.

Low Odor Resin

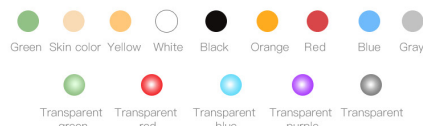

High-speed Printing

The resin improves the printing speed while ensures the strength of the model and non-excessive shrink while increasing the printing speed. It can also shorten the curing time and improve the printing efficiency of the LCD machine as much as possible with good appearance and outperforming practicability.

Low Odor Resin

Bright And Colorful

Multiple colors can be chosen, there must be one color adapt your requirement.

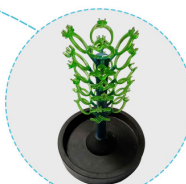

Note: the color is subject to the real object.

Packaging Display

The packaging is for reference only, there may be differences in different batches, please refer to the actual product.

Note

- 1.This is a one-time use product, it cannot be used repeatedly.
- 2.This material should not be in contact with eyes, skin, or clothing. It should not be swallowed. Use this product in good ventilation and take protective measures. Wash thoroughly after operation.
- 3.This is a liquid product with minor odor. Please wear a mask to avoid inhalation.
- 4.Reseal immediately after usage and store at a dry and ventilated area. Do not expose under the sun.
- 5.If inhaled by accident, hospitalize immediately.
- 6.If contacted with skin, wash with soap and water or hospitalize immediately.
- 7.If contacted with eye by accident, open your eyelids and rinse with soap water for about 20 minutes and hospitalize immediately.
- 8.If swallowed by accident, do not induce vomiting, stay calm and hospitalize immediately.
- 9.Disposal of waste in accordance with local environmental regulations.

Storage

Indoor storage in a dry ventilate place free from any corrosive gas, sun exposure or moisture. 1 Year shelf life.

Product Parameters

Product name: Low Odor Resin	Molding surface hardness: 85-88D
Absorption band: 405nm	Viscosity: 150-250MPa·s
Net weight: 500g	Shrinkage: 3.62-4.24%
Net weight: 1.0kg	
Printing speed: 2-18 s/layer	Applicable models: Most LCD / DLP printers
Color: White, Orange, Skin color, Black, Red, Yellow, Gray, Blue, Green, Transparent green, Transparent red, Transparent blue, Transparent purple, Transparent	

COMPANY INTRODUCTION

Shenzhen Creality 3D Technology Co., Ltd.

Creality 3D is an internationally renowned 3D printer manufacturer, national high-tech enterprise, and a pioneer in the R&D and mass production of FDM and resin 3D printers in China. Our company has been committed to applying 3D printers into market, delivering efficient and cost-effective integrated 3D printing solutions for individuals, families, schools and enterprises.

Headquartered in Shenzhen, Creality 3D has branches in Beijing, Shanghai and Wuhan, and cooperates with colleges and universities to build an industry-university-research teaching and internship base. We have a complete set of R&D, manufacturing and after-sales service system and strong technological strength. With a total area of 30,000m², a team of over 1,000 employees, and monthly production capacity of over 800,000 units, Creality 3D prides itself on its large-scale R&D center and 3D printing laboratories and Creality research institute. Coupled with modern production lines working for 24 hours nonstop and demanding quality control system, the excellent product quality is thus guaranteed from the source. The products have been sold to more than 100 countries and regions, and have been ranked in the top of the global 3D printer sales list for a long time.

With initial aspirations never faltered, sticking to "customer-first" service concept, Creality 3D will keep passing on the spirit of the 3D printing industry evangelist to make better quality 3D printers and provide best service, enabling people to enjoy the convenience of technology and contributing to the rise of China's intelligent

CREALITY
