

Engineering Filament with High Toughness

A widely used thermoplastic engineering plastic

- Good Printing Result
- Dimensional Stability
- Non-toxic
- Wear Resistance, High Impact Strength
- Tough hard

CR-ABS 3D Printer Filament

CR-ABS 3D Printer Filament

Non-toxic

In the process of printing model, no harmful substances emission, safe and non-toxic.

Health, environmental protection, non-toxic and pollution-free

CR-ABS 3D Printer Filament

High stability

Excellent wear resistance and corrosion resistance, good dimensional stability

CR-ABS 3D Printer Filament

Simple operation, good compatibility

CR-ABS filament is compatible with all FDM printers of Creality 3D. You can create your artwork with this high quality material in just a few simple steps.

CR-ABS 3D Printer Filament

Product Parameters

Product Name: CR-ABS 3D printer filament	
Printing Temperature: 220-260°C	N.W. : 1kg
Package weight: 1.15kg	Tensile Strength: 43MPa
Package size: 210*210*75mm	Bubble: No
Tolerance: ±0.03mm	Filament Diameter: 1.75mm
Color: Black, White, Gray, Red, Blue ,Yellow, Green, Orange,Pink, Brown	

CR-ABS 3D Printer Filament

- Good Printing Result
- Non-toxic
- Tough and hard High impact strength
- Good Fluidity
- High Stability

CR-ABS 3D Printer Filament

Good physical performance

Tough, hard, rigid, no layer separation or warped edges.

CR-ABS 3D Printer Filament

More colors to build a 3D printing multi-color world

We provide 10 commonly used colors, and there is always one for you.

CR-ABS 3D Printer Filament

Models Display

CR-ABS 3D Printer Filament

Good result of printing

Compared with ordinary ABS, the printing of large objects with edges and corners, layer separation, warping, splitting and other phenomena are obviously improved, the solution has strong fluidity, and the printing is smooth.

Cabinet

CR-ABS 3D Printer Filament

Aeronautical Model

Black White Gray Red
Blue Yellow Green Orange
Pink Brown

MODEL

Elephant

Parts

COMPANY INTRODUCTION

Shenzhen Creality 3D Technology Co., Ltd.

Creality 3D is an internationally renowned 3D printer manufacturer, national high-tech enterprise, and a pioneer in the R&D and mass production of FDM and resin 3D printers in China. Our company has been committed to applying 3D printers into market, delivering efficient and cost-effective integrated 3D printing solutions for individuals, families, schools and enterprises.

Headquartered in Shenzhen, Creality 3D has branches in Beijing, Shanghai and Wuhan, and cooperates with colleges and universities to build an industry-university-research teaching and internship base. We have a complete set of R&D, manufacturing and after-sales service system and strong technological strength. With a total area of 30,000m², a team of over 1,000 employees, and monthly production capacity of over 800,000 units, Creality 3D prides itself on its large-scale R&D center and 3D printing laboratories and Creality research institute. Coupled with modern production lines working for 24 hours nonstop and demanding quality control system, the excellent product quality is thus guaranteed from the source. The products have been sold to more than 100 countries and regions, and have been ranked in the top of the global 3D printer sales list for a long time.

With initial aspirations never faltered, sticking to "customer-first" service concept, Creality 3D will keep passing on the spirit of the 3D printing industry evangelist to make better quality 3D printers and provide best service, enabling people to enjoy the convenience of technology and contributing to the rise of China's intelligent
