

Kemtek is the exclusive distributor of Aroxo, delivering trusted Auto ID solutions with unmatched local expertise.

Auto ID Technology

Leading the Smart ID Evolution

For over three decades, Kemtek has been at the forefront of the Auto ID industry, providing Sub-Saharan businesses with advanced solutions for data capture, tracking, labelling, and inventory control. In partnership with Argox, Kemtek has continuously adapted to meet the rising demand for accuracy, speed, and efficiency across retail, healthcare, manufacturing, logistics, and warehousing. From barcode scanning and mobile computing to thermal printing and POS integration, our Auto ID portfolio has empowered customers to streamline operations and unlock greater productivity. These technologies enable seamless integration between physical assets and digital systems – creating the intelligent backbone of modern commerce.

Kemtek's Argox Partnership

With a strong foundation in regional distribution, Kemtek has strategically aligned with Argox, a world-class Auto ID manufacturer. This long-standing relationship ensures reliable support, consistent supply, and access to cutting-edge products across Sub-Saharan Africa. This focused partnership allows us to provide tailored solutions for small businesses, large-scale operations, and specialised industries alike – all backed by Kemtek's deep technical expertise and responsive service.

Building Smart Systems for a Digital Economy

The Auto ID sector continues to evolve rapidly as digital transformation reshapes industries. From wireless mobility to smart scanning and cloud-enabled label printing, Kemtek and Argox are proud to help businesses transition into this connected future. Whether optimising retail checkouts, enhancing supply chain traceability, or enabling mobile workforce efficiency – our technologies are powering tomorrow's operations today.

Our Promise To You

RELATIONSHIPS

We invest heavily in developing and nurturing relationships with all our stakeholders through solving problems and adding value. At the same time, we empower our people to build rewarding careers in the solutions industry.

COLLABORATION

We take the time to understand your business priorities, and the strategies you've devised to attain them. We can then recommend solutions aligned with your growth and transformation priorities.

WORLD-CLASS TECHNOLOGY

Thanks to our solid distributor status with leading manufacturers and suppliers, we have priority access to the solutions and expertise you need to take your business to the next level.

INNOVATION

The evolution of Kemtek is a story of continuous innovation. We have remained curious about the systems and approaches that can allow us to enhance our solutions offering and help our customers grow.

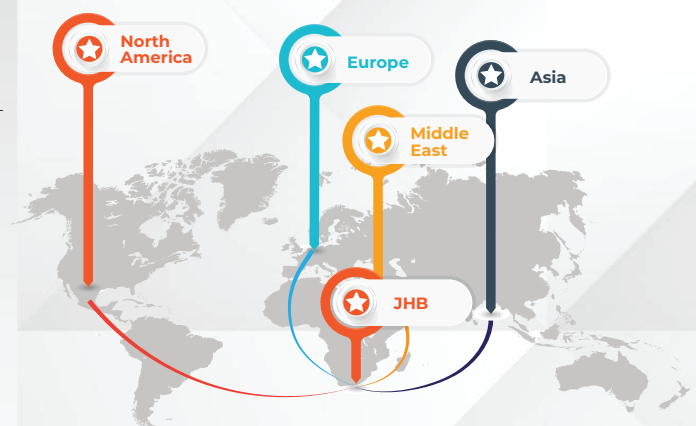

EXCELLENCE

We strive for excellence in everything we do – and in empowering our customers to deliver outstanding outcomes to their own customers through the provision of industry-leading innovations.

National Office & Distribution Footprint

Kemtek's ongoing quest is to scour the globe for the finest technology solutions on offer from the world's leading and most innovative original equipment manufacturing brands, based largely in North America, Europe, the Middle East and Asia.

Once shipped to South African shores, these products are transported to Kemtek's regional distribution hubs, under the auspices of our Cape Town, Durban, Gqeberha and Johannesburg branches. From there, the goods are distributed throughout the sub-Saharan region.

Customer & Technical Support

The Sale is Just the Start. Our promise is that the sale is just the beginning: as a Kemtek customer, you'll benefit from superlative after-sales service and technical support, carried out by factory-trained and qualified regional technicians, and from our development of remote solutions capabilities.

Argox Labelling & Printing Systems

Argox delivers reliable, precise, and versatile barcode label printers for industries including retail, logistics, manufacturing, and office environments. With robust designs and a range of desktop to industrial models, Argox printers are suited to both everyday use and demanding production requirements

Argox OS-214D PRO

A trusted entry-level desktop thermal printer featuring an expanded memory and modern connectivity options. Complete with a 2-year warranty, it's ideal for small offices and light-duty retail label printing.

Argox CP-2140EX Pro Series

This high-speed desktop printer supports dual-mode (thermal transfer & direct thermal) printing and media from 1 to 4.25. With 6ips speed and flexible interfaces, it handles shipping labels, barcodes, tags, and more—perfect for e-com-

Argox CP-3140EX Pro Series

An upgraded desktop model offering faster performance at higher resolutions compared to its predecessor. Ideal for workspace environments needing precision and efficiency in medium-duty label applications.

Argox D2-250 Pro Series

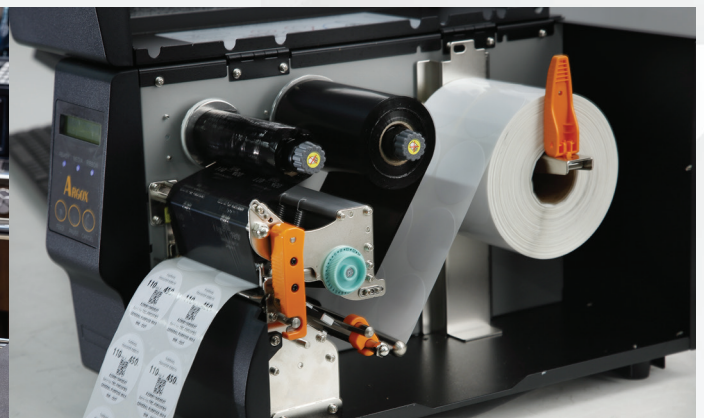

A compact 2-inch label printer designed for portable or space-constrained settings. It supports essential industrial tasks with solid build quality and dependable print output.

Argox D4-280plus

A cutting-edge linerless 4-inch direct thermal printer that eliminates paper waste through its "Print & Paste" system. Featuring modular maintenance, anti-jam coating, and multiple connectivity options—designed for retail, logistics, and delivery environments.

Argox O4-250 Pro Series

A mid-range 4-inch desktop printer with an easy-load clamshell design, 7IPS print speed, and multiple interfaces including Ethernet and USB. Built for dependable performance in retail, manufacturing, and logistics.

From Desktop to Industrial power!

This Argox versatile range supports dual-mode (thermal transfer & direct thermal) printing and media from 1 to 4.25. With speeds up to 6ips and flexible interfaces, Argox printers handle shipping labels, barcodes, tags, and receipts—ideal for e-commerce, logistics, manufacturing, and retail use.

Desktop Printers

Argox desktop printers deliver powerful performance in a compact footprint, making them the ideal choice for businesses that demand efficiency without compromise. With direct thermal and thermal transfer options, crisp 203 dpi resolution, and speeds of up to 7 inches per second, these printers handle everything from shipping labels to compliance tags with ease.

Their clamshell drop-in design ensures quick media changes, while robust connectivity – including USB, RS-232, Ethernet, and optional wireless – makes integration seamless across workstations. Whether you choose the D4-250 Pro, the CP-2240 OS, or the ultra-compact OS-2130D, Argox desktop printers combine durability, speed, and simplicity to keep your operations moving beautifully.

Argox CP-2140EX Pro Series

- Entry-level desktop printer offering
- excellent value for money
- Simplifies setup by reducing tedious, costly, and time-consuming procedures
- Faster printing speed compared to previous CP Pro models
- Durable shell suit design with integrated structure for long-lasting reliability

Argox CP-3140EX Pro Series

- Reduces setup complexity by eliminating tedious, costly, and time-consuming procedures
- Next-generation desktop printer offering superb value for money
- High-resolution printing with substantially faster speeds than previous CP Pro models
- Durable shell suit design with integrated structure for enhanced reliability

Argox D2 250 Pro Series

- Direct thermal printer with user-friendly clamshell design
- Easy media loading for quick, hassle-free operation
- Compact footprint fits into tight spaces
- Versatile applications across retail, logistics, healthcare, and offices
- Built-in USB hosting & device support for seamless connectivity
- Expandable options: Ethernet/RS232, Wi-Fi, Bluetooth v4.2

Argox D4 Pro Series

- Mid-range direct thermal bar code printer for efficient everyday use.
- Space-saving design ideal for workplaces where space is at a premium
- Higher printing speeds than standard models for faster output
- Ultra-friendly calibration modes for simple setup and operation
- Multiple interface options supporting diverse industry applications

Desktop Printers Continued

Argox D4-280plus

- Direct thermal linerless label printer for eco-friendly operation
- Eliminates wasteful liner paper to protect the environment
- Feature-rich design simplifies and streamlines daily work
- Special coating prevents paper jams for smooth performance
- Easy maintenance with user-friendly access

Argox O4-250 Pro Series

- Mid-range 4-inch desktop bar code printer for versatile business use
- New generation design built to save time and money
- Clamshell structure for quick and easy media loading
- High print speeds for efficient, fast output
- Multiple interface options for seamless connectivity across applications

Argox OS-2130D Pro

- Compact direct thermal desktop barcode printer for space-saving efficiency
- Outstanding features including RT clock, error warning buzzer, and built-in tear-off bar
- Exceptional value with reliable performance at an affordable cost
- Easy to operate design ideal for low- to medium-volume printing needs
- Versatile applications across retail, logistics, healthcare, and office environments

Argox OS-214EX Pro

- Compact 4-inch desktop bar code printer for space-conscious workplaces
- Excellent value for money with reliable performance
- Easy and efficient operation designed for busy environments
- Feature-rich design supporting diverse industry applications
- Versatile functionality across retail, logistics, healthcare, and office use

Industrial Printers

Argox industrial printers deliver uncompromising performance and durability, making them the powerhouse choice for businesses that demand reliability in high-volume environments. Built for continuous operation, they combine direct thermal and thermal transfer options with crisp 203/300 dpi resolution and blazing print speeds to handle everything from shipping labels to compliance tags with ease.

Their rugged metal construction ensures long-lasting durability, while large media capacity and extended ribbon support reduce downtime. With multiple connectivity options – including USB, RS-232, Ethernet, and wireless expansions – integration across production lines is seamless. Whether you choose the iX4-250, the iX6-250, or the heavy-duty iX8-250, Argox industrial printers are engineered to keep operations running smoothly, efficiently, and with absolute precision.

Argox iX4-240 Pro Series

- Feature-rich light industrial bar code printer designed for demanding environments
- High-performance MPU ensures faster processing and improved efficiency
- Increased memory capacity supports more applications and complex tasks
- Enhanced work efficiency for industrial spaces requiring reliable output
- Durable design built to handle continuous operation in tough conditions

Argox iX4-250 Pro Series

- Feature-rich light industrial bar code printer designed for demanding environments
- High-performance MPU delivers faster processing and improved efficiency
- Expanded memory capacity supports more applications and complex tasks
- Enhanced work efficiency for industrial spaces requiring reliable output
- Durable construction built to withstand continuous operation in tough conditions

Argox iX4-280 Series

- 4-inch thermal transfer industrial printer built for high-volume labelling demands
- Designed for automatic labelling in emerging markets and busy production lines
- Tough, optimised mechanical structure ensures durability under heavy workloads
- Flat panel design for streamlined operation and easy access
- Durable printhead engineered for long-lasting performance
- Fast print speeds to maximise efficiency and reduce downtime

Argox iX4-350 Pro Series

- Feature-rich light industrial bar code printer designed for demanding environments
- High-performance MPU delivers faster processing and improved efficiency
- Expanded memory capacity supports more applications and complex tasks
- Enhanced work efficiency for industrial spaces requiring reliable output
- Durable construction built to withstand continuous operation in tough conditions

Industrial Printers Continued

Argox iX6 Pro Series

- Compact 6-inch light industrial printer designed for space-constrained environments
- Saves up to 20% working space with reduced dimensions
- Feature-rich design for versatile industrial applications
- High-quality industrial metal case ensures durability and reliability
- Smooth printing performance for consistent, professional output

Argox XM4-200

- 4-inch thermal transfer industrial printer built for demanding industrial applications
- Large colour display provides a user-friendly, convenient operation interface
- High-speed printing ensures efficient output in busy environments
- Expanded memory capacity supports complex, high-volume tasks
- Durable printhead engineered for long-lasting performance under heavy workloads
