Our Promise To You

RELATIONSHIPS

We invest heavily in developing and nurturing relationships with all our stakeholders through solving problems and adding value. At the same time, we empower our people to build rewarding careers in the solutions industry.

COLLABORATION

We take the time to understand your business priorities, and the strategies you've devised to attain them. We can then recommend solutions aligned with your growth and transformation priorities.

WORLD-CLASS TECHNOLOGY

Thanks to our solid distributor status with leading manufacturers and suppliers, we have priority access to the solutions and expertise you need to take your business to the next level.

INNOVATION

The evolution of Kemtek is a story of continuous innovation. We have remained curious about the systems and approaches that can allow us to enhance our solutions offering and help our customers grow.

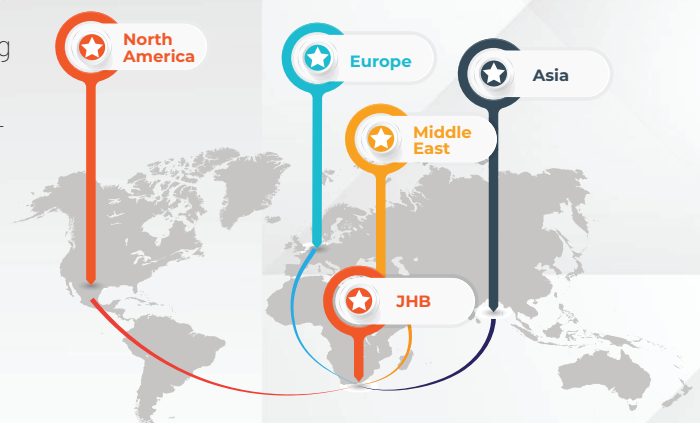

EXCELLENCE

We strive for excellence in everything we do – and in empowering our customers to deliver outstanding outcomes to their own customers through the provision of industry-leading innovations.

National Office & Distribution Footprint

Kemtek's ongoing quest is to scour the globe for the finest technology solutions on offer from the world's leading and most innovative original equipment manufacturing brands, based largely in North America, Europe, the Middle East and Asia.

Once shipped to South African shores, these products are transported to Kemtek's regional distribution hubs, under the auspices of our Cape Town, Durban, Gqeberha and Johannesburg branches. From there, the goods are distributed throughout the sub-Saharan region.

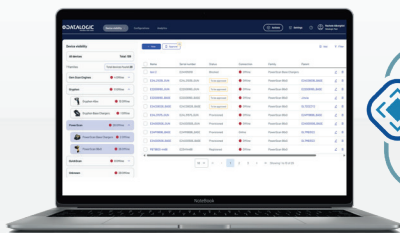

Customer & Technical Support

The Sale is Just the Start. Our promise is that the sale is just the beginning: as a Kemtek customer, you'll benefit from superlative after-sales service and technical support, carried out by factory-trained and qualified regional technicians, and from our development of remote solutions capabilities.

Datalogic Handheld Scanners: a complete offering

HANDHELD PRODUCTS AND ACCESSORIES FOR ALL APPLICATIONS

Whether your organization is looking to automate the data collection activity, to manage the warehouse inventory, to assure the correct traceability among the entire supply chain, to enhance check-out speed in retail environment as well as improve transaction accuracy and efficiency in the store, handheld scanners give a solution. Datalogic is able to provide also a range of accessories designed to complement and enhance scanner operation and ensure communication and mobility.

DATALOGIC CONNECT

Built around three key pillars — device visibility, configuration, and analytics — this IoT platform delivers powerful remote management capabilities that simplify device setup, integration, firmware updates, and ongoing optimization through real-time insights, all seamlessly performed online.

EASEOFCARE SERVICES

Everything you'd expect from a brand that cares. A comprehensive set of options to deliver the best post-sales support for repairing our devices to keep them running over many years.

Handheld Scanners

DATALOGIC QD2220

- Lightweight ergonomic design reduces operator fatigue during extended use
- Industry-leading decode speed ensures fast, precise results every time
- Extended range scanning for busy checkout counters, warehouse inventory, and document stations
- Reliable Datalogic technology delivers consistent everyday performance
- Plug-and-play setup for quick installation and seamless integration

DATALOGIC QW2520

- Trusted POS companion delivering reliable barcode scanning
- Prompt readings across all barcode types, even hard-to-read, poorly printed, or damaged codes
- Effortless mobile scanning including devices and digital wallets
- Reads through plexiglass barriers for safe and convenient checkout
- Incredibly affordable price without compromising performance

QUICKSCAN 2500

- Entry-level 2D corded handheld scanner delivering performance beyond expectations
- Robust and reliable companion for retail POS checkout
- Effortless barcode reading across damaged, hard-to-read, or poorly printed codes
- Optimized for Covid safeguards — scans seamlessly through plexiglass barriers
- Built for years of service with durable construction and dependable performance
- Incredibly affordable price makes it the most desirable new addition to Datalogic's handheld family

QUICKSCAN QBT2500

- Cordless Bluetooth handheld scanners delivering maximum flexibility
- Extended autonomy and radio range solve most end-user applications
- Distinctive QuickScan 2500 design aligned with Datalogic's general-purpose handheld family
- Latest USB-C connectivity for modern, reliable integration
- Complete series available — corded and cordless models for every need
- Variety of stands, holders, and accessories ensures the best fit for any working environment

Handheld Scanners

Gryphon GM4500

- Premium handheld scanners for general-purpose applications
- Elegant, cutting-edge design created with people in mind
- Unmatched ergonomics for comfortable all-day use
- Advanced megapixel sensor with white-illumination 2D technology
- Outstanding performance across a wide range of barcode types
- Reliable everyday scanning backed by proven Datalogic innovation

Gryphon GBT4500

- Premium handheld scanners for general-purpose applications
- Elegant, cutting-edge design created with people in mind
- Unmatched ergonomics for comfortable all-day use
- Advanced megapixel sensor with white-illumination 2D technology
- Outstanding performance across a wide range of barcode types
- Reliable everyday scanning backed by proven Datalogic innovation

QUICKSCAN QD2590

- 2D barcode handheld scanner designed for modern retail needs
- Meets growing demand for 2D scanning across the data capture industry
- Optimized for POS checkout where speed and reliability are critical
- Reads mobile phone displays and loyalty cards with ease
- Dependable performance for retailers adapting to evolving barcode standards

POWERSCAN 9600 DPX

- Traceability critical across industries including automotive, aerospace, electronics, and healthcare
- Ensures safer products, continuous improvements, and faster issue resolution
- PowerScan 9600 DPX Series created to address traceability challenges
- Industrial handheld scanner designed for Direct Part Marking (DPM) applications
- Offers key features and solutions tailored for businesses needing granular product tracking

POWERSCAN 9600 RFID

- Android 12 (GMS), Upgradable to Android 14
- Octa-core over 2.2 GHz, 4GB RAM / 64GB Flash
- Versatile reader options include laser and 2D imager with over 20m reading distance
- 1.8m/6ft.(2.4m with rubber boot) drop resistance keypad options, Terminal Emulation keypads support TN and VT systems
- 5,500mAh freezer battery ensures up to 5 working hours under -30°C environments
- Heaters embedded in touch screen and scan window
- Ice-resistant materials to prevent potential damage caused by prolonged operation in low temperature environments

POWERSCAN PM9600

- Handheld industrial barcode scanner
- Range-topping model in the best-selling PowerScan series
- Helps businesses achieve and exceed traceability targets
- Designed for manufacturing, intralogistics, and retail environments
- Addresses the priority of full traceability to meet consumer delivery demands

Mobile Computers

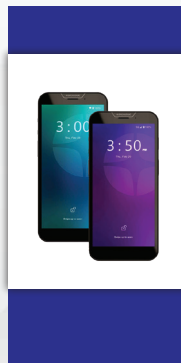

MEMOR 12-17 FAMILY

- Ultra-thin enterprise PDA device line
- Full-touch Android design for front-facing applications
- Ideal for retail, transportation & logistics, and healthcare
- Meets customer demands for ergonomics, security, and durability
- Equipped with latest scanning and payment innovations
- Powered by 5G and WiFi6E connectivity for indoor and outdoor use

MEMOR 30-35 FAMILY

- Rugged enterprise PDA device family
- Designed to improve operations in retail, transportation & logistics, warehousing, and manufacturing
- Builds on the reputation of Datalogic's best-selling Memor line of rugged mobile computers
- Flagship PDA range delivering unmatched performance in a rugged package
- Helps workers efficiently access applications and information on the go
- Boosts productivity with enterprise-class durability and reliability

DATALOGIC SKORPIO X5

- Rugged Android mobile computer
- Best-in-class device for managing tough enterprise data capture challenges
- Lightweight, ergonomic design for comfortable all-day use
- Android Enterprise Recommended next-generation Skorpio family
- Features top reading performance for fast, accurate scanning
- Superior display visibility for clear operation in any environment

JOYA TOUCH 22

- All-in-one mobile computer scanner designed to fulfil every retail need
- Powerful processor supports customized applications for seamless in-store experiences
- Enhances self-shopping and self-checkout with product location, offers, and efficiency tools
- Wireless charging ensures continuous operation with minimal maintenance
- Hygienic design allows easy cleaning for safe, long-lasting use
- Technology meets user experience to create the future of retail shopping

CODiScan™ Bluetooth® wearable scanner

Handle more with Codiscan

SLIM, LIGHT, PORTABLE: UNFOLD MASSIVE PRODUCTIVITY

With a minimal footprint and a lightweight feel, the new CODiScan enables a comfortable and non-intrusive hands-free solution that allows workers to be faster improving the quality of their work. Compared to traditional handheld readers, CODiScan achieves a weight savings of up to 1.5 tons per shift and avoids the need to set down and pick up the scanner, eliminates non value-added steps, providing higher scanning accuracy and a drastic error reduction, saving 4 seconds per scan with up to 33% less errors.

CUTTING-EDGE INNOVATION TO ASSIST YOUR WORKER

CODiScan provides a smart aiming system that helps to identify the framed barcode before scanning it. A complete set of good-read feedback helps the worker speed up operations:

- High visible LEDs on the device (2 lateral blades and a rear spot) enhance feedback visibility from every angle.
- Datalogic's Green Spot allows the user to see the feedback directly on the scanned item, saving time and improving accuracy.
- Vibration and audio complete an advanced set of feedback notices.

NO DOWNTIMES TO REACH YOUR TARGETS

CODiScan runs up to 16 hours and 12,000 scans with a single 2 hour charge using different charger options (1-slot, 2-slot modular up to 6 slots, 12-slots). CODiScan instantly captures 1D/2D barcodes and images. A multi-functional key allows workers to use the same device in different mounting options and easily check the battery status, connectivity, and other custom functions. CODiScan can be held in multiple ways: on the hand, neck or belt. The hand trigger is a 'one size fits all' adjustable solution and is available for the right or left hand. It's modular, meaning the electronic side can be separated by the fabric, which is washable, or can be changed reusing the trigger system.

EASY TO USE, EASY TO CONFIG, EASY TO DISPOSE

CODiScan come with the Datalogic Aladdin™ software suite and can be paired to any Android™ mobile computer through the Aladdin App, allowing easy pairing, firmware updates, main parameters and symbology settings. CODiScan can also streamline working flows of a fixed station using the gateway connected to a PC or via Wi-Fi to the cloud. The Aladdin web page and Aladdin stand-alone guarantee a full-set configuration by barcode generation or file transfer. Handtrigger is modular which makes it easy to wash and dispose of the fabric separately from the electronics.

HIGHLIGHTS

- Higher ergonomics and flexibility: minimal footprint, only 44 grams in weight, multiple mounting options (hand, neck/belt/ pocket).
- Higher scanning performance and productivity: 1D/2D reading capabilities up to 1.5 m / 4.9 ft, intelligent aiming system, good-read confirmation on label, lateral and rear high-visible LEDs, audio and haptic feedback, 2 working shift operations.
- Easier to use and manage: mobile app for pairing and settings, hand-rigger modularity for easy washing and disposal, expandable 2-slot charger

INDUSTRY - APPLICATION

1. Transportation & Logistics ~ Warehouse management: Picking, packing, sorting, put away, shipping/receiving.
2. Retail ~ Click and collect, order fulfillment, receiving, back of store warehouse management.
3. Manufacturing ~ Parts and assembly's traceability, finished goods verification, inventory management

Fixed Retail Scanners

MAGELLAN 3410VSI

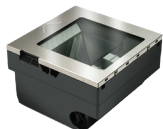

- On-counter POS barcode scanner
- High-performance design tailored for point-of-sale applications
- Shares components with the Magellan 3450Si range for easy integration into existing installations
- Powered by a new electronics platform for enhanced performance
- Operates from a single 5V USB connection for simple setup
- Provides outstanding scanning performance with seamless POS system connectivity

MAGELLAN 3450VSI

- High-performance POS imaging for high-volume checkout environments
- Duplicates speed and field-of-view of traditional laser scanners
- Expands imaging capability for versatile barcode capture
- Delivers outstanding performance on hard-to-read barcodes
- Ensures maximum productivity with ergonomic ease of use
- Powered by advanced digital imaging for class-leading reliability

MAGELLAN 3510HSI

- In-counter barcode reader
- Easy integration with powerful performance for fast-moving POS environments
- Provides accurate imaging tailored to high-speed retail checkout
- Shares cables, mounts, and exterior plastics with the 3550HSi range for seamless installation
- Powered by a new electronics platform for enhanced performance
- Operates from a single 5V USB connection for simple, reliable setup

MAGELLAN 900i

- New white model expands the Magellan 900i family
- Designed for customer-facing environments where appearance and style matter
- Blends seamlessly with light-colored POS equipment for a coordinated, professional look
- Perfect for pharmacies, cosmetics counters, healthcare, and premium retail
- Compact design saves space while maintaining powerful performance
